How long have you known the applicant? _____

The applicant named above has asked you to write a letter of recommendation for a substantial scholarship to a college or university of their choice. Even though the scholarship committee recognizes that activities outside of the classroom help to build character and leadership abilities, this scholarship is based primarily on academic success. Therefore, we recommend that community references concentrate on community involvement, whereas members of the academic community concentrate on activities and attitudes in the classroom and extracurricular areas. **We strongly suggest that your letter be typed or word-processed rather than hand-written.**

Please attach a *dated and signed* copy of your letter of recommendation. Please mail the letter of reference/recommendation directly to the scholarship committee. All information that you provide will remain confidential. The address is given below.

Thank you for your assistance.
